

# FERRANT P.H.E

Producteur d'Huiles Essentielles

**SPECIFICATION and ANALYSIS**  
**CHERVILS leaves OIL**  
**(cerfeuil)(E.O.)**  
**Anthriscus cerefolium**

**Origin :** Natural Product  
Origin France  
EO issued from steamed distillation

**Physico Properties**

Description	Yellow liquid
Odour	Fresh Chervils leaves
Solubility in alcohol	Yes
Density	0,971
Refractive index	1,516
PH :	3,2
Angular rotation	- 0.05°
Flash point	46° C
Packing	Aluminium can, varnished
DLUO	17 months
Storage	5 to 15° C Constant temperature
Ratio EO / raw material	1/1000

**Analysis report by chromatology CC3036 established by the laboratory ITEIPMAI**  
**of the batch : ce1910**

Analysis chemical : %

limonène	0,36
undecane	2,4
Methyl Chavinol=estragol	51,85
Methyl eugénol	1,32
Methyl isoéugénol	35,33

Product certified in order with European Regulation 1334/2008 as it doesn't contain substances listed in annex III and allergens
